

Lesser-used and Plantation Timber Products **EXHIBITION 2022**

A trade event for wood processors & the construction industry in Ghana.

Theme

Emerging wood species fit for housing development & construction works in Ghana.

Wed, 12th
to Thur, 13th
Oct., 2022

Erata Hotel,
Accra, Ghana

A major exhibition of Ghana-made wood products using plantation and lesser-used wood species. The exhibition is purposely put together for the built industry and the general public to learn about the several lesser-used wood and plantation species on the domestic market which are good substitute for building and construction materials.

The exhibition is organized by the Kumasi Wood Cluster Association (KWC), in partnership with the Timber Industry Development Division (TIDD) of the Forestry Commission and the Ghana Chamber of Construction Industry (GhCCI).

Why you should attend:

Exhibitors and participants will:

1. Gain exclusive access to influential industry players through one-to-one meetings, business-to-business (B2B) pitching opportunities and other networking forums.
2. Be able to expand customer and supplier base, channels for sales and purchases, and conduct business by leveraging the opportunities of the exhibition.
3. Participate in and learn more from insightful ICT tools that ease access to information for addressing important cross-industry issues such as the timber availability, supply outlook and prospects to meet current and future housing construction timber needs.
4. Gain firsthand experience about the quality and variety of products which can be designed out of wood from lesser known, lesser used and plantation timber species.
5. Learn about how these species of wood can be treated to be suitable for making quality and durable products.
6. Showcase products of exhibitors and promote businesses.

Who to expect:

Exhibitors

- Timber suppliers and millers.
- Large, medium and small furniture-making companies.
- Manufacturers of value-added wood products (furniture, mouldings, joinery, builders' woodwork handicrafts, plywood, veneer, planks for heavy and light construction).

NB: The exhibition is open to the general public and participation is absolutely free.
